5. Cost Basis Accounting Method Election

Principal Funds will provide cost basis information to you and the IRS for shares purchased after January 1st, 2012 (covered shares). The cost basis accounting method elected below will be used for all accounts established by this application, including any future funds added to this account or to any new funds added to any existing accounts established by the primary owner unless you provide a different method at that time. NOTE: If no cost basis accounting method election is selected, the Fund Default Method of AVERAGE COST will be assigned to the accounts established by this application unless we have a future election that was previously selected on file.

Cost Basis Election Options

Instructions: Please choose **ONE** cost basis method by checking the box next to your chosen method.

| <input type="checkbox"/> Average Cost (ACST) | <input type="checkbox"/> First-In First-Out (FIFO) | <input type="checkbox"/> Last-In First-Out (LIFO) |

| <input type="checkbox"/> Specific Lot* (SLID) | | |

*When selecting Specific Lot, please choose a secondary method to be used as an alternate in the event specific lot depletion information is not provided.

Secondary Method (for Specific Lot only)**

| <input type="checkbox"/> First-In First-Out (FIFO) | <input type="checkbox"/> Last-In First-Out (LIFO) | <input type="checkbox"/> High Cost (HIFO) |
| <input type="checkbox"/> Low Cost (LOFO) | <input type="checkbox"/> Loss/Gain Utilization (LGUT) | |

**Note: If no Secondary Method is selected, the First-In First-Out (FIFO) will be used.

Future Election Option:

Your account will be set up to apply the above cost basis election to any future funds and/or accounts established by the primary owner of this account unless you decline by checking the box below. Note: If any future funds and/or accounts are added and there is not a Future Election on file, then the fund default method of Average Cost will apply.

- I/We DO NOT want the cost basis option selected above to apply as a Future Election to any new funds and/or accounts established by the primary owner of this account.

Cost Basis Election Option Definitions

- **Average Cost (ACST):** Calculates the cost of shares in an account by averaging the cost of all purchases made after January 1, 2012. Shares will be redeemed in a first-in first-out order (FIFO) for the average cost method.
- **First-In First-Out (FIFO):** Shares acquired first in the account are the first shares distributed.
- **Last In First-Out (LIFO):** Shares acquired last in the account are the first shares distributed.
- **High Cost (HIFO):** Shares acquired with the highest cost per share are the first shares distributed.
- **Low Cost (LOFO):** Shares acquired with the lowest cost per share are the first shares distributed.
- **Loss/Gain Utilization (LGUT):** Distributes shares with losses before gains, consistent with the objective of minimizing taxes. For shares that yield a loss, shares owned one year or less (short-term) will be redeemed before shares owned more than one year (long-term). For gains, long-term shares will be redeemed before short-term gains. With favorable long-term gains rates, long-term gains are given priority over short-term gains to reduce tax liability.
- **Specific Lot (SLID)*:** Shareholder selects which lots to distribute at the time of each redemption.

*Note: When selecting Specific Lot, please choose a secondary method to be used as an alternate in the event specific lot depletion information is not provided.
