

# Dental insurance that won't break your bank

Think offering quality dental benefits is too expensive? It doesn't have to be. Principal® offers plenty of options to fit your budget.

## Range of affordability

As a low-cost alternative or within a choice plan – where employees choose from two benefit designs – these options can save you money over traditional dental benefits. Employees can choose or change dentists any time, and they can even see a specialist without a referral.

And did you know almost seven out of 10 dental services are preventive?<sup>1</sup> That's why all our benefit designs cover exams, cleanings and x-rays.

## Here are some options that cost less than a traditional benefit design.

Benefit design	Average savings*	What's covered	How much is covered	Which dentist
Preventive-only	60%	Exams, cleanings, x-rays, sealants and fluoride	100% to a maximum of \$500	Any dentist
Preventive and limited basic	30%	Preventive and basic services (fillings, emergency exams, periodontal prophylaxis, stainless steel crowns, consultations)	Preventive – 100% Basic – 80% after a \$50 deductible Maximum of \$1,000	Any dentist
In-network only benefits <sup>2</sup>	25%	Preventive, basic and major services	Preventive – 100% After a \$50 deductible: Basic – 80% Major – 50% Maximum of \$1,000	Dentist in the Principal Plan Dental Network
High-deductible	25%**	Preventive, basic and major services	In network: Preventive – 80% Basic and major – \$250 deductible, then covered at 80% Non-network: Preventive, basic and major – \$250 deductible, then covered at 80% Maximum of \$1,500	Any dentist

\* Compared to a traditional benefit design with preventive covered at 100%. After a \$50 deductible, basic covered at 80% and major at 50% to a maximum of \$1,000. Services from any dentist.

\*\* 15% savings potential when the non-network benefits are the same as in-network benefits.

## Power of the network

With 117,000+ unique dentists with multiple offices, the Principal Plan® Dental Network is one of the largest in the industry.<sup>3</sup> That means your employees have plenty of choices, and fewer will need to change dentists to get lower in-network service fees. That's a win-win all around.

Offering great employee benefits is one valuable way to recruit and retain the best of the best. And with a broad range of available coverage options, it's well within your reach to provide quality dental benefits to your employees.
