You protect your home and car, but how about the asset you rely on most — your income?

1  Average new car price, Kelley Blue Book, December 2017.
3  Projected cumulative income of a 35-year-old earning $6,250/month ($75,000 annually), assuming a 5% annual increase to age 65.
Protect your future earnings

Have you thought about how much your income could add up to?

Protect what you’ve worked so hard to earn.

For example, a 35-year-old who’s now earning $75,000 could expect to earn $5 million by age 65.

The need

Consider all the things your income pays for...

That's why you may want to consider buying income protection. If you’re unable to work and earn an income, it helps you pay monthly expenses.

40% of Americans could not cover an unexpected $400 emergency expense.

Everyone needs a "Plan B"

We know things don't always go as planned in life. That's why it's important to have a Plan B in place so you can keep living your best life.

* 100,000 less $1,400 in hypothetical annual disability income insurance premiums. Premiums and $5,000 monthly benefit amount depend on various factors. Your local representative can illustrate the exact amount you’re eligible for based on current underwriting guidelines. This a hypothetical example only.
A disability can mean big changes in your expenses

When an illness or injury prevents you from working, two things often happen:

- Your income reduces or stops
- Expenses increase.

Healthy and working

| Income | Savings | Expenses |

Disabled and not working

| Debt |

Don’t worry, we can help you prepare.

During a disability...

Regular expenses continue:

- Food
- Housing
- Cars
- Utilities
- Internet
- Child care
- Student loan payment
- Insurance premiums
- Savings for retirement
- Plus, much more

Plus new disability-related expenses begin:

- Insurance co-pays
- Medical costs not covered by insurance
- In-home care
- Home modifications
- COBRA premiums
The dynamic duo of coverage

When you think of health insurance, don’t forget its partner — disability insurance. Together, they help you pay the bills:

Health insurance covers:

- Hospital bills
- Doctor’s bills
- Medications
- Other medical treatments

Disability insurance provides funds for:

- Food
- Clothing
- Housing
- Student loans
- Transportation
- Personal technology
- Insurance
- Retirement saving
- College saving
- Medical expenses not covered by health insurance
- Much, much more!
Are you prepared?

Protect your income today so you can take comfort in knowing that if the unexpected happens, you’re prepared.

Is your “mental checklist” complete?

- Emergency contact
- Health Insurance
- Sick leave
- Life insurance
- Child care
- Other (pet sitter, lawncare, etc.)
- Income Protection
Affordability and value

Protect yourself with budget-friendly coverage

You could protect your income for less than what most people spend on routine expenses like coffee, a cell phone, internet services, etc.

**Sample monthly cost**

This chart shows how much you’d pay for $1,000 in monthly benefits.

You can estimate the cost for more coverage by using the following:

\[
\text{Estimated monthly cost} = \text{Sample monthly cost from chart} \times \text{Multiply by how much more coverage you may need (for example, 3 times for a benefit of $3,000 a month)}
\]

Assumptions: Principal Individual DI Insurance policy, Michigan resident, to Age 65 Benefit Period and Your Occupation Periods, non-tobacco, $1,000 maximum monthly benefit, 90-day Elimination Period, 4A occupation class.

*Your specific premium depends on a variety of factors, including, but not limited to, gender, age, smoking status, benefit amount, elimination period, resident state and occupation class. These cost comparisons are for illustrative purposes only.*
Affordability and value

Are you planning for retirement?

Keep those plans on track — no matter what life brings.

You can use Principal® DI Retirement Security to help protect your ability to save for retirement if you become too sick or hurt to work.

How a disability could affect your ability to save

Assumptions: $2,000/month contributions beginning at age 30, 5% rate of return and age 65 retirement. Potential loss due to disability at age 40 without continued contributions to retirement savings.

DI Retirement Security is issued as non-cancelable, guaranteed renewable, individual disability income insurance policy. It is not a pension or retirement program or a substitute for such a program. DI Retirement Security is not available for anyone who is over insured based on our current Issue and Participation guidelines. It may not be available or the benefit may be reduced for certain occupations if there is existing disability coverage with lifetime benefits. Additional underwriting guidelines may apply.
You can protect your future

Disability insurance doesn’t have to be expensive.

If you do become too sick or hurt to work, here’s an example of a policy that costs $75 a month and gets you $2,000 a month in benefits.

<table>

Assumptions: Male-specific $72/month rate for Colorado resident, age 35, 4A occupation class, non-tobacco, $2,000/month benefit, To Age 65 Benefit/Your Occupation Period, 90-Day Elimination Period, Residual and Recovery Benefit rider, Cost of Living Adjustment rider (3%). For illustrative purposes only.

“I remember thinking, ‘I wonder if we really should be spending money this way,’ because surely we’ll never use the benefits. Turns out, I don’t know how we would’ve paid our bills. The benefits (from disability insurance) are what keep our lives going.”

What’s your time worth?

Think about the start of your typical work day. Do you...

- Read about current events in the news?
- Grab a quick coffee or snack?
- Check last night’s emails?
- Prep for an upcoming meeting?
- Pay for your DI coverage?

In about 10 minutes of your work day, you could pay for the daily cost of your DI policy.*

*Assumptions based on after-tax income with an annual premium of $2,000-$2,500. Product coverage varies based on need, income and other factors. Policy cannot be paid on a daily basis. For illustrative purposes only.
Is your employer-provided group disability insurance enough?

The disability insurance you have through work is a great start for protecting your income. For many though, it may not be enough, especially after taxes.

Adding an individual disability insurance policy to a group long-term disability (LTD) plan helps ensure that you can replace more of your income. And that goes a long way in helping you pay everyday living expenses.

Plus, an individual disability insurance policy is yours and goes with you even if:
- You change jobs
- Your income increases
- You develop health issues

Chart based on $6,250 gross monthly income ($75,000 annual), with 60% group long-term disability program, assuming a 30% tax bracket for federal, state and FICA.
