

Learning about individual Disability Income (DI) insurance from Principal® is easy. This product profile outlines the key features you need to know about to help clients and grow your DI business.

How it works

An individual Disability Income (DI) insurance policy helps your clients protect their most relied-upon asset - their income. An individual DI insurance policy pays a monthly benefit, like a “paycheck,” in the event of a disability, so your clients can take comfort in knowing that their current lifestyle is protected from the unexpected.

How to start the conversation with clients

- **Chances are you insure your car, home and personal property, but what about your income?** Your income allows you to pay for the things that are important to you and do the things you love. Protect it so you can get back to what really matters.
- **Don't delay — protect your most important asset today.** Coverage costs less when you are young and healthy. As you age, buying a policy becomes more expensive and you may risk not getting coverage due to health issues.

- **Protect your income faster and easier with our Simplified DI Program.** This program skips the hassle of obtaining income verification or routine medical requirements^{1,12} to get approval for your coverage.
- **Protect your retirement dreams.** Adding DI Retirement Security allows you to continue to save for retirement, so you can protect your investment in your retirement dreams.
