Processing Summary Information for Plan Sponsors

Opening New Accounts and Processing Files

The process for opening new accounts will be initiated electronically by creating a spreadsheet or file and forwarding the information to Principal Bank. Files may be forwarded to Principal Bank monthly, quarterly, semi-annually or annually. Please select your processing options on page 3 of this Conversion Checklist.

The two file options are explained below.

1. Comma Separated Values (CSV) – The layout for CSV can be found in Appendix A of the Technical Specification document.
 - CSV is a standard file format. To create a CSV file, complete the following steps:
 - a. Open Microsoft Excel
 - b. Create file using enclosed file layout information in Appendix A.
 - c. Select 'File – Save As'
 - d. In the 'Save As Type' field, select CSV

- Files will be sent to Principal Bank via a web-based solution, allowing for the secure exchange of data between the Bank and your file creator. Principal Bank will issue a User ID and password to log into the website. Both CSV and XML file options will be sent to Principal Bank using this type of file transmission.
2. XML Processing – Principal Bank supports standard IFX message format. The file layout for XML processing is available upon request.

Funding Accounts

You will electronically fund new accounts or add funds to existing accounts by using either ACH or Wire Transfer processing. Detailed funding information will be sent to you based on your selection on page 3 of this checklist.
